Focus on STEM— Brighter Tomorrow

#BrighterTmrw

The world is changing and we need to change with it. Youth are not waiting for the world to fix itself. We are doing something about it! Youth are the difference that the world needs! The youth of today are challenged to change the world and they have accepted the challenge. Stop treating youth like youth because they are paving the way for a Brighter Tomorrow!

We are helping youth with their world changing ideas and helping to turn their ideas into something real, if you are an aspiring youth, who has a great idea, tell us about the idea, we want to hear! Please fill out the form to the website. We will get back to you as soon as possible and we will try our best through our vast network of supporters to get you the help you need. Let's change our world! <http://www.drainpower.org/brightertmrw/>

*District Benchmark results for Grades 5-8 have been released and our K-3 Key Skills will be out shortly.

Natoaganeg's Data Wall and School Wide Intervention

Natoaganeg First Nation has taken the collection and use of data to a whole new level. The data wall pictured here is prominently displayed in the hallway for students, teachers, and parents to see. After collecting the data from various assessments such as Math Key Skills and District Benchmark Assessments, teachers meet in teams to decide how to best meet the needs of struggling learners and enrich those who are ready to move forward. Students are then grouped for 30 minutes each day for 3-4 weeks for targeted intervention on specific outcomes. The goal is to ensure all students reach proficiency and/or mastery on all outcomes. This has been paying great dividends as Natoaganeg's results on our District Benchmark Assessments have soared. Keep up the great work meeting the needs of all learners Natoaganeg!

100th Day!

Each year many of our Primary Grades have a "100th Day of School Celebration". Here are some of our favorite links to help you plan your celebration for 2016.
